while revolutionizing
safety management

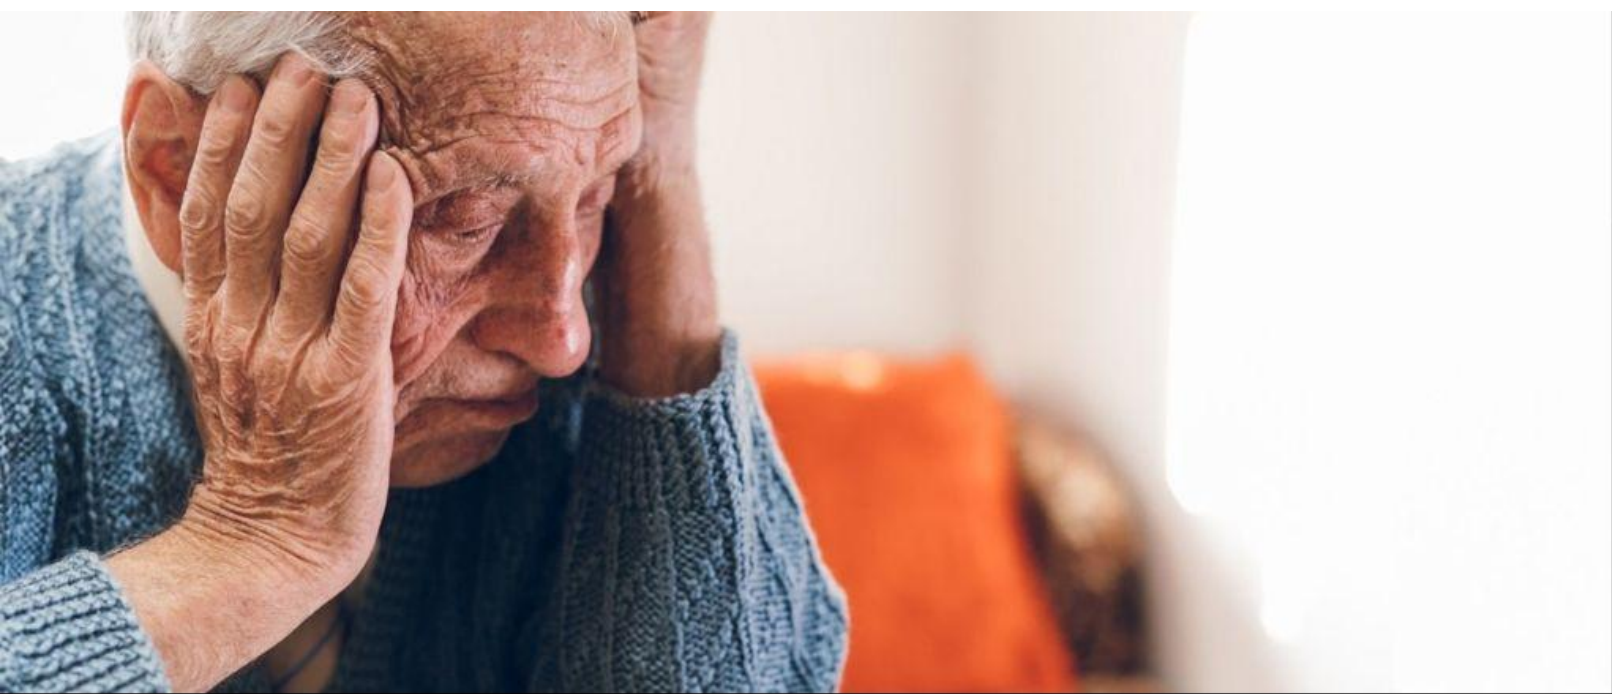

**Mobile App
for Apple iOS
& Android**

Black Bird Smart Wrist Band is a user-friendly technology device that will increase protection while revolutionizing safety management.

Black Bird Smart Wrist Band is paired with a mobile application that stores all the individuals personal and protective information.

Our Smart wrist band and Mobile application are uniquely designed to create a safe and effective communication system for vulnerable individuals such as:

Individuals with Disabilities

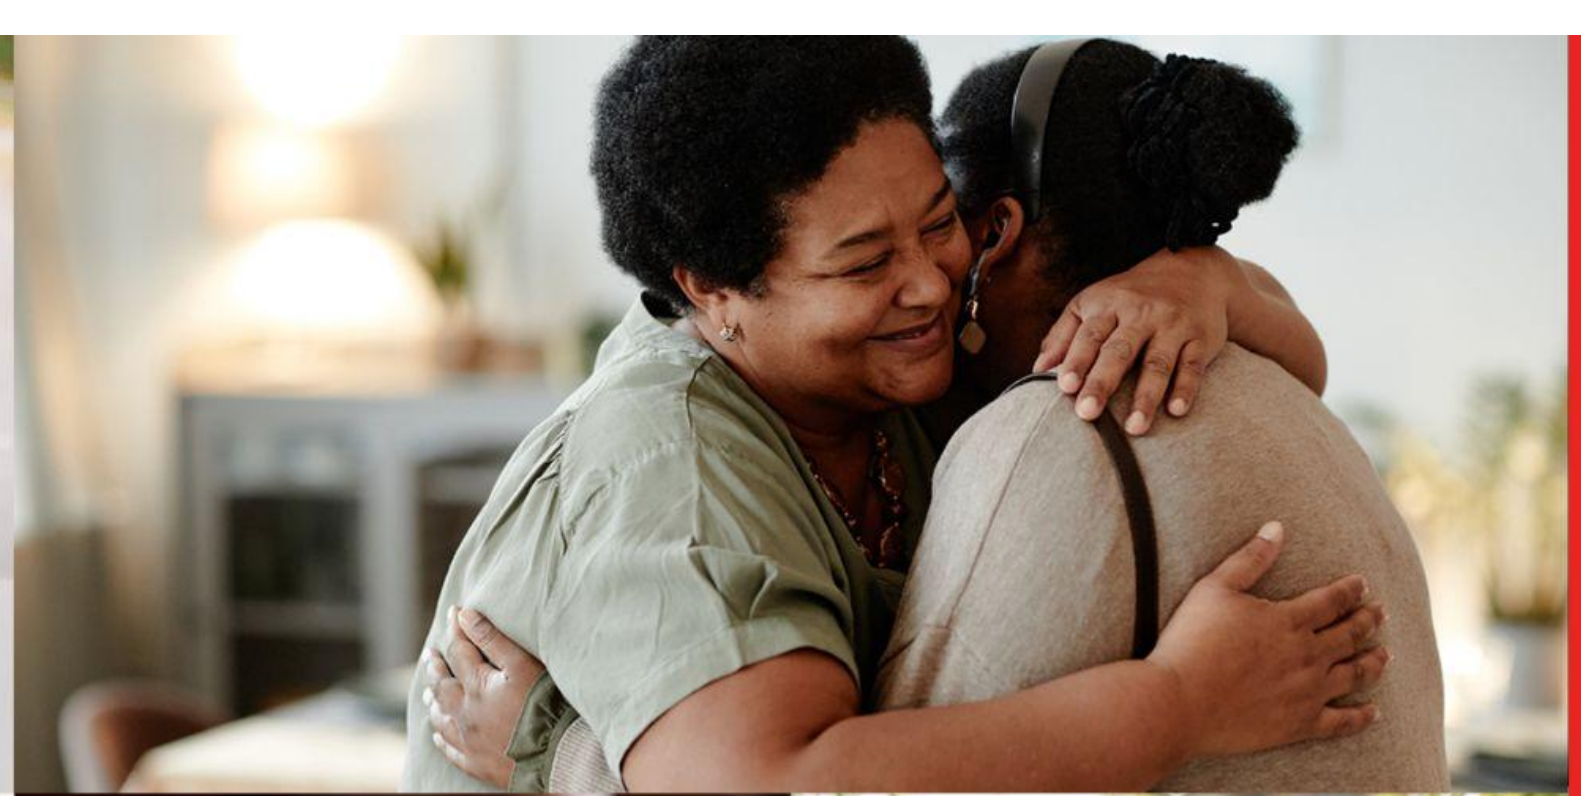

Children with Autism (Elopers)

Seniors with Cognitive Concerns (Dementia/ Alzheimer's)

And more....

We intend to support vulnerable individuals by providing critical information stored in the mobile application. Our overall mission is to utilize the individual's protective community and link all caring supports through our technology system.

Children/adults with Autism will significantly benefit from Black Bird Smart Wrist Band. As we understand, people with disabilities (intellectual & developmental) have a tendency to wander off from their safe place. Black Bird Smart Wristband and Mobile application will provide critical information and assist with locating the individuals to a safe place.

Safeguard Your Future
By Registering Yourself
